

## Education and Training Committee – 22 September 2009

### Practitioner psychologists - List of approved programmes (current and historic)

#### **Executive summary and recommendations**

This paper is a follow up to the paper of 11 June 2009, which asked the Committee to agree the list of currently approved programmes as well as the list of programmes which were approved historically for specific periods. These recommended lists were based on accreditation information received from the British Psychological Society (BPS).

The Education Department has since received further information which has resulted in minor changes to the list of currently approved programmes. This has also provided greater clarification for the list of programmes which were approved historically for specific periods. The Committee is now asked to agree the lists enclosed in the Appendix 1 and 2 as final.

#### **Introduction**

Article 15(8) of the Health Professions Order provides that:

- “(8) The Council shall maintain and publish a list of the courses of education and training, qualifications and institutions –
- (a) which are for the time being approved under this Order: or
  - (b) which have been approved under this Order but which are no longer approved, together with a record of the periods in respect of which they were approved.”

Paragraphs (1) and (2) of Article 5 of the Health Care and Associated Professions (Miscellaneous Amendments and Practitioner Psychologists) Order 2009 provides that:

“(1) The HPC and the BPS, and the HPC and the AEP, shall enter into arrangements (which may include financial arrangements) to facilitate the introduction of the new arrangements for the statutory regulation of practitioner psychologists arising out of this Order

“(2) The arrangements entered into under paragraph (1) shall include arrangements to ensure that all the names in the BPS register and the AEP register which are to be entered in the HPC register with effect from the appointed day for practitioner psychologists are so entered.”

In turn, schedule 2(16) of the Health Care and Associated Professions (Miscellaneous Amendments and Practitioner Psychologists) Order 2009 outlines amendments to schedule 3 of the Health Professions Order 2001. The amendment of schedule 3 refers to the following definitions;

““AEP register” means the aggregate of the entries in the membership list maintained by the Association of Educational Psychologists (which held its inaugural meeting at the London School of Economics on 14th April 1962 and was founded on that date(49)) that relate to full members of the Association;”;

““BPS register” means the aggregate of the entries in the register maintained by the British Psychological Society (which was incorporated by Royal Charter on 26th February 1965(50)) that relate to holders of practising certificates who are full members of one or more of the divisions of the Society in respect of the following branches of psychology: clinical psychology; counselling psychology; educational psychology; forensic psychology; health psychology; occupational psychology; and sport and exercise psychology;”

It is therefore necessary for the Committee to maintain and publish lists of approved programmes for practitioner psychologists.

### **List of approved programmes**

At its meeting of 11 June 2009, Committee agreed the list of currently approved programmes subject to receiving final data from the BPS and any subsequent editing. This list was published on the website, with the relevant caveats, ahead of the Register opening to provide education providers with clear and effective information about whether their programme would be approved by the HPC or not.

As of the 1 July 2009, these programmes were granted open ended approval and the online list of approved programmes was changed to adopt the same format as the other thirteen professions.

Since the 1 July 2009, there have been minor amendments to the list of currently approved programmes and the final recommended list is enclosed in Appendix 1.

### **List of historically approved programmes**

At its meeting of 11 June 2009, Committee also agreed to approve individual programmes and ‘combination routes’ for historical periods, subject to receiving final data from the BPS and any subsequent editing. These decisions became effective from 1 July 2009 and the lists have been published on the website.

Since the 1 July 2009, the Education Department has received further information relating to the list of individual programmes and ‘combination routes’ for historical periods. This provided the Department with greater clarification and allowed the individual programmes and ‘combination routes’ to be recorded as one list of historically approved programmes. Appendix 2 contains the final recommended list of historically approved programmes.

## **Decision**

The Committee is therefore asked to agree the following:

- To reconfirm open ended approval to the programmes outlined in Appendix 1.
- To approve the programmes for the historical periods outlined in Appendix 2.
- To confirm that the programmes outlined in Appendix 2 are no longer approved.

## **Background information**

Practitioner psychologist – list of approved programmes paper (11 June 2009).  
Minutes of the Committee meeting (11 June 2009).

## **Resource implications**

Accounted for in 2009-2010 Education work plan and budget.

## **Financial implications**

Accounted for in 2009-2010 Education work plan and budget.

## **Appendix**

Appendix 1 – List of currently approved programmes.

Appendix 2 – List of historically approved programmes.

## **Date of paper**

9 September 2009
