**Panel:** Helen Davis (Chair)                      Stuart Mackay  
                 Jeff Lucas    Jeff Seneviratne

**Guidance for Panel Chairs**

In determining whether to approve a programme, the Panel must reach its decision on the basis of the evidence put before it, in the form of the HPC Visitors' report and any observations on the report made by the education provider.

The Visitors' report is only a recommendation and the Panel may depart from that recommendation where it is satisfied that it is appropriate to do so.

The Panel must reach its own decision and give reasons for that decision. If the Panel wishes to amend the report, it should give reasons for each amendment.

<b>Decision</b>
That the Visitors' report should be accepted and that an approval visit should be scheduled for the academic year 2011/12 to assess the programme against the standards of education and training.
The Visitors' report should be amended to reflect the Visitors' consideration of the observations by the education provider and their recommendation that the visit should now take place in the academic year 2011/12.
<b>Reasons</b>
An approval visit scheduled for the academic year 2011/12 is the most appropriate method to assess the programme against the standards of education and training.
The Panel were satisfied that the Visitors had considered the observations by the education provider and were content that the visit should now take place in the academic year 2011/12.
