

Approval Summary report - University College London PGCerts in Independent and Supplementary Non-Medical Prescribing with Enhanced Clinical Assessment

If the education provider does not provide observations, only this summary report (rather than the whole report) will be provided to the Education and Training Committee (Panel) to enable their decision on approval. The lead visitors confirm this is an accurate summary of their recommendation, and the nature, quality and facilities of the provision.

Education provider	Case reference	Lead visitors	Quality of provision	Facilities provided
University College London	CAS-01327-Z8W0K7	Gemma Howlett Rosie Furner	<ul style="list-style-type: none"> • Through this assessment, we have noted how the programme meets all the relevant HCPC education standards and therefore should be approved. • We progressed to stage 2 of the process without further review through stage 1, due to the clear alignment of the new provision within existing institutional structures, as noted through the previous section. • We referred one matter from stage one of the case to stage two. This relates to the effective delivery of the programme. The education provider has stated that this programme will be delivered 	<ul style="list-style-type: none"> • This area is not assessed in the same way as this approval case is regarding a prescribing programme. • This is not an area assessed by the standards for prescribing. • The facilities provided will have been assessed in their recent approval cases and also in their performance review (2022-23).

			<p>almost entirely online aside from four days. We shall assess this as part of stage two as it relates to a programme-level analysis. Stage one is more concerned with programme-level standards. This area was assessed and standards shown to be met in stage 2.</p> <ul style="list-style-type: none"> • All prescribing standards met after the stage 2 assessment.
